

TIPs on Arsenic Audio Description

The text “TIPs on arsenic” appears on screen, with the CDC and ATSDR logo at the bottom.

The camera pans over a river with mountains in the background and two pop ups appear: a red pop up that says “toxic” and a green pop up that says “non-toxic”. These pop ups disappear, and two other pop ups show water and soil. An illustration of rice pops up on screen. Houses can be seen in the background.

A father and son play on an old wooden playground structure that is outdoors.

A ship is floating in the harbor. There are fish in the water. The silhouette of a pelican sits in the foreground.

A patient appears in a medical exam room. The patient transitions to an anatomical diagram shows the organ systems affected by and other symptoms of arsenic exposure. Pop ups show the GI system with the words "Cholera-like Diarrhea" underneath; the nervous system with the words "Peripheral Neuropathy" underneath; transverse white bands on the fingernails with the words "Mees Lines" underneath; keratosis and hyperpigmentation on the palm of a hand with the words "Keratosis, Hyperpigmentation" underneath; and cancerous cells with the words "Cancers" underneath.

The camera pans over a picnic scene, where people are eating fish and other foods. A clock appears in the bottom left and time passes, with the words “48 hours” on the clockface.

The patient sits in a living room and talks on the phone with the doctor.

The patient looks through the food pantry and picks out some grains.

A person turns on a faucet in the kitchen and fills a test tube with water.

Two parents and their child speak with a specialist in medical toxicology or occupational and environmental medicine in a medical office.

The text "TIPs on arsenic" appears on screen. The web address atsdr.cdc.gov appears below it and the CDC and ATSDR logo are at the bottom of the screen.
