

TIPs on Nickel Audio Description

The text “tips on nickel” appears on screen, with the CDC and ATSDR logo at the bottom.

The camera pans across a dusty factory floor. There is a rotating piece of nickel metal. Two pop-ups appear: one with jewelry and one with stainless steel cookware. Two characters work in the factory. One character is wearing personal protective equipment (PPE) and has a check mark. The other character is not wearing PPE, is highlighted in red, and has a caution symbol.

A patient appears in a medical exam room. The patient’s anatomical figure appears showing the organ systems affected by nickel exposure. Pop ups show inflamed bronchi with the words “Chronic bronchitis” underneath; a tumor in the nose with the words “Nasal sinus cancer” underneath; a tumor in the lungs with the words “Lung cancer” underneath; and a rash on a wrist with the words “Allergic dermatitis” underneath.

There is a urine collection container on a bathroom counter. A clock appears on the right and time passes, with the words “24 hours” on the clockface.

Pop ups show lungs outlined in red with the words “Lung inflammation” underneath; the GI tract highlighted in red with the words “GI irritation” underneath; a urine sample cup with the word “Proteinuria” underneath; a cross-section of a kidney with two stones with the words “Kidney stones” underneath; bones outlined in red with the words “Painful bone disease” underneath; a nose with the words “Olfactory impairment” underneath; a person having difficulty breathing with the word “Emphysema” underneath; and a tumor in the lungs with the words “Lung cancer” underneath.

A different patient is in a hospital bed in an intensive care unit. A doctor stands next to the patient’s bed holding a clipboard.

The patient sits in a living room and talks on the phone with the doctor.

A person points to a watch labeled “Nickel-free” in a jewelry store.

The patient talks with a foreman in an office at a factory. The foreman points to a sign about PPE. The factory is visible through a window.

There is a ventilation fan and open window in the factory floor. The factory floor is clean. Proper PPE fades onto the patient.

The patient wears work clothes and reaches for a towel in a locker. There are non-work clothes and shoes in the locker.

The text "tips on nickel" appears on screen. The web address atsdr.cdc.gov appears below it and the CDC and ATSDR logo are at the bottom of the screen.
