

TIPs on TCE Audio Description

The text “tips on TCE” appears on screen, with the CDC and ATSDR logo at the bottom.

Two people are working in a laundromat. One character cleans a shirt with a stain remover.

A person turns on a faucet in the kitchen and fills a glass with water.

A woman and a man appear in silhouette in a medical exam room. The silhouettes are anatomical diagrams showing the organ systems affected by TCE (trichloroethylene) exposure. Pop ups show cranial nerves and a brain with the words "Cranial nerve damage" underneath; thickened and inflamed areas on two hands with the word “Scleroderma” underneath; a fetus in a uterus with the heart highlighted with the words “Congenital heart malformations” underneath; male reproductive organs with the words “Decreased sperm quality & sex hormones” underneath; female reproductive organs with the words “Amenorrhea, Miscarriages” underneath; a tumor in a kidney with the words “Kidney cancer” underneath; tumors in a liver with the words “Liver cancer” underneath; and a microscopic view of blood with abnormal lymphocytes with the words “Non-Hodgkin lymphoma” underneath.

A man holds a drink while sitting on a couch at home. He puts a hand on his head and his head turns red.

A woman sits in a living room and talks on the phone with a doctor. The text “Blood and urine TCE levels” appears at the top of the screen. Below, there a red “x” next to the text “cannot predict health effects” and a green checkmark next to the text “can confirm occupational exposure in some situations.” The text disappears and the person talks with the doctor on the phone.

The man grabs a bottle of degreaser from a shelf in a store.

The woman speaks with a specialist in maternal-fetal medicine in a medical office.

The text “tips on TCE” appears on screen. The web address atsdr.cdc.gov appears below it and the CDC and ATSDR logo are at the bottom of the screen.
