

After-Accreditation Promotional Materials for Enduring Activities

Environmental Health and Land Reuse (EHLR) Certificate training Module 2: Evaluating Environmental and Health Risks

WD 4773

Program Description: This enduring activity is designed to increase participants' capacity and skills associated with land reuse activities. The goal of Module 2: Evaluating Environmental and Health Risks is to provide a basic overview of environmental health and site assessment.

Objectives:

At the conclusion of the activity, the participant will be able to:

1. Describe the basics of toxicology including epidemiology.
2. Describe the first two phases of environmental site assessments including the tiered approach to cleanup.
3. Describe four key steps in risk assessment and ATSDR's public health assessment process.

**Faculty/
Credentials:**

Laurel Berman, PhD, MS, Environmental Health Scientist, ATSDR

**CE Origination Date:
CE Expiration Date:**

April 1, 2026
April 1, 2029
